

14 November 1946

Country: Poland
Subject: Airfields

Airfields are located in Poland in the following places:

1. Lubartow (about 25 km north of Lublin) An airfield 2 km by 1½ km located near the Lubartow-Kamienka highway, beyond the railroad south of the highway. This is the first identification of this airfield.
2. Niemce/Masutow (about 13 km approximately north of Lublin on the Lublin-Lubartow road.) Auxiliary airfield, size probably 2 km by 1½ km, 2 km west of Niemce, south of the Niemce-Masutow road. A landing field was identified earlier in this area.
3. Lublin A permanent airfield without a concrete landing field, situated on the Lublin-Piaski highway north of Fabryczna street, near the former Plage-Laskiewicz airplane factory. The size of the field is 2 km by 1½ km. This airfield is well-known.
4. Stridniki A permanent, well-known airfield with a concrete landing field. Its size is not known. "P-3" bombers are stationed at this field.
5. Podlady (this apparently refers to the well-known Deblin/ing field. Its size is 3 km by 2 km and Podlodka airfield at 51°37'50" N, 22°11'50" E.) A permanent airfield with concrete landing field. It is 3 km north of Podlodov, near Praytoezno on the Deblin-Keek highway.
